

THE WORLD OF WATER TREATMENT

About us

EUWA is a global leader in sustainable water treatment, minimizing the use of water, energy, and chemicals. Our technologies ensure maximum efficiency, with focus on hygienic design – from consulting to the finished system.

Hanns-Heinz and Elisabeth Eumann

The company was founded in 1965 by Hanns-Heinz Eumann. His first employee was his wife Elisabeth. Today, their son Michael Eumann is managing the company.

In 1967, EUWA moved into its new premises in Gärtringen. This was followed by years of continuous expansion at home and abroad.

EUWA established its subsidiary EUWA Singapore in 1996 with a clear strategic focus on the Asia Pacific region. Joanne Liu is the Managing Director.

First Customer Gambrinus, Nagold

In 2020, EUWA LATAM was opened in Honduras to strengthen its market presence across the Americas. Since 2023, EUWA has been operating its own office in Peru and continues to expand in South America.

EUWA has been a specialist in water treatment systems for the brewing and beverage industry for over 60 years. With over 3000 installations across 110 countries worldwide, EUWA ranks among the global leaders in the industry. Our long-standing expertise forms the basis for innovative and tailored technology solutions.

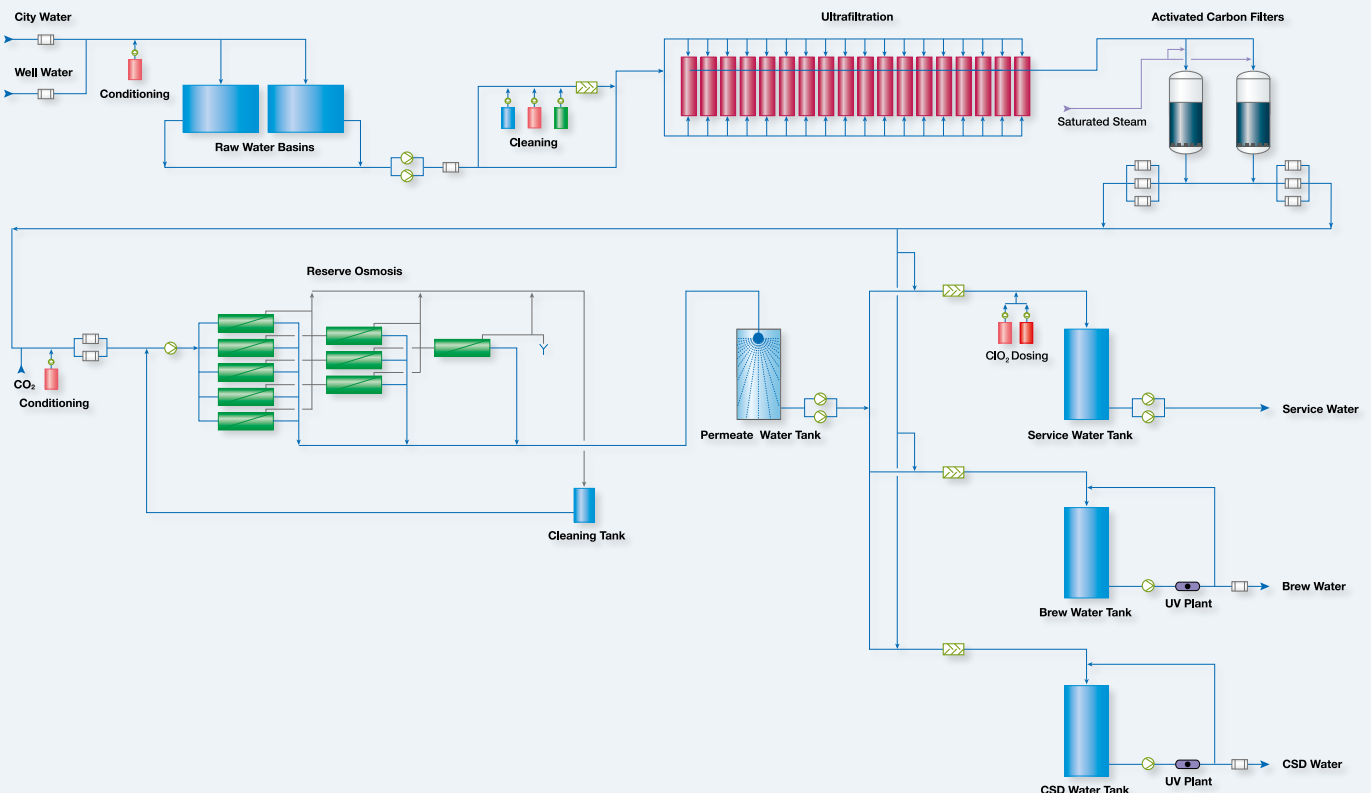

We offer a comprehensive range of modern and classic water treatment technologies, including engineering and service.

Engineering

- Design and execution of fresh water treatment projects on a customer specific basis
- Qualified and motivated engineers who understand and can solve your problems
- Use of in-house technology and expertise

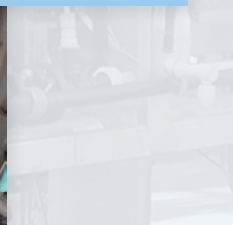

Customer Service

- After-sales Service and Service Contracts
- Teaching and training for all operators
- Online support and monitoring of systems
- Audits

Systems

- **Ultrafiltration**
for particle removal, disinfection and arsenic removal
- **Reverse Osmosis**
for decarbonisation / demineralisation,
for silica and nitrate removal,
for RO concentrate treatment (SiRO)
- **EROX® Membrane Deaeration**
to remove O₂ or CO₂
- **Effluent Recovery Plants (ERP)**
- **Sand and Multi-Layer Filters**
for iron and manganese removal
- **Greensand Filters + GEH Filters**
for arsenic and heavy metal removal
- **Activated Carbon Filters**
for dechlorination and THM removal
- **ECA, ClO₂, Hypochlorite and Ozone Systems**
- **UV Systems**
for disinfection and dechlorination
- **Flocculation / Precipitation Systems**
with optimised reactor design
- **Ion Exchanger**
for softening / decarbonisation
- **CALMIX®**
for fully automated and flexible production of
calcium non-carbonate hardness for the brewing water
- **ELIWA®**
for lime water production using membrane technology
- **LIQUICK®**
RO concentrate treatment

References

EUWA water treatment plants are installed in over 110 countries on all 5 continents.
Here is a small extract of our reference list:

- ABInBev
- Asahi
- Bitburger
- Boon Rawd
- Carlsberg
- CCN
- Coca-Cola
- Cooper's
- Diageo
- Erdinger
- Fifco
- Ganzberg
- Harboes
- Heineken
- Hite
- Krombacher
- Molson Coors
- Lion
- Paulaner
- Pepsi
- Polar
- Radeberger
- UCB
